Towns: Bolton, Harvard, Boxborough, Stow
Acreage: 658
Wildlife Management Zone: 10

Description of property:
The Delaney WMA is held in fee by the Department of Conservation and Recreation and managed via a Memorandum of Understanding with MassWildlife. The property is comprised mainly of upland pine forest habitat, wetlands, and a 100-acre pond maintained by the Army Corp of Engineers (ACOE) for flood control.

Location/Access/Parking:
Parking can be found on Harvard Road, Finn Road, and Taylor Road.

Habitat Management:
Fields are maintained by yearly mowing in conjunction with ACOE flood control protocols.

Hunting Opportunities:
Waterfowl is abundant and pre-built blinds are located onsite and are available for use during the periodic controlled Canada Geese hunt. Fur-bearers (including otter, muskrat, mink, raccoon and beaver) are common north of the dam. Deer, coyote, fox, turkey, and red and gray squirrels are common in the uplands.

Fishing Opportunities:
Warm water fishing opportunities exist in Delaney Pond and the northern half of lower Delaney pond.

Wildlife Viewing and Other Features:
Delaney is an important area for bird nesting and is a great place for bird watching—especially for marsh birds. Osprey and bald eagles are occasionally seen hunting over the pond.

Special WMA Regulations:
None.
